Little Mascara

The Replacements

You and I fall together
You and I sleep alone
After all, things might be better
After 1, and there's one that's long gone

For the moon you keep shootin'
Throw your rope up in the air
For the kids you stay together
You nap 'em and you slap 'em in a highchair
All you ever wanted was someone to take care of ya
All you're ever losin' is a little mascara

Afternoon, things are quiet
Settle back now if you can
Stations clip by like a rocket
Don't you worry if you wonder why he ran

All you ever wanted was someone to take care of ya
All you're ever losin' is a little mascara
That you cry (3x)
Your eyes out

All you ever wanted was someone
Ma'd be scared of
All your ever losin' is
A little mascara
That you cry
