

Is Happiness Just a Word? (feat. Yes Alexander)

Vinnie Paz

Advisory - the following lyrics contain explicit language:

[Intro x3]

Run

(Go ahead and)[Hook: Yes Alexander]

Darkness comes beneath the dying stars

With all the blood and scars

I'm gonna hunt you

With fear I appear

Nothing will stop me

The greater

Creature in me

Shattered, I will capture you

So run[Verse 1: Vinnie Paz]

My family don't understand what I go through

Under diagnosed for 20 years, ain't never broke through

You ever been in such a fog you don't know you?

Never being able to do the shit you're supposed to?

I wouldn't wish it on anyone that I'm close to

Wouldn't wish it on anybody that I'm opposed to

There's not an accurate diagnosis to show you

Basic neurobiology isn't close to it

I'm watching life as a spectator

I can't help myself, even though I possessed data

It's not a part of my spirit to want to test nature

You think you know what I'm feeling, cousin, then let's wager

I'm having trouble retaining new information

Familiar scenes starting to look foreign- derealization

Everybody tired of being patient

Mama wondering why her baby crying in the basement

Constant rumination just exacerbates it

To the point where I can't barely narrate it

I've had doctors tell me that my mind is fascinating

But they can't tell me why the sickness has been activated[Hook][Verse 2: Vinnie Paz]

My head don't work, the meds don't work
But I don't want to be dead, dead don't work
Sleep's the cousin of death, the bed don't work
Maybe I'd rather be dead; dead don't hurt
Realization of an inherent emptiness
Maybe that's another sin for the pessimist
Possibly I am a jinn with a exorcist
I've fallen because I've been on the precipice
Maybe it's my mama's possible regret
Maybe it's a neurological neglect
Maybe it's the reason why water's wet
The angular gyrus and where the frontal lobe connect
But maybe I'm being too complicated for you
Maybe I should just be calm and explain it to you
The psychiatrist thinking they could fool you
Paxel, Zoloft, it's just wasteful to you
I've tried meditation, tried to sit in silence
But how the fuck that help a neurochemical imbalance?
Why would you tell a person that they were childish
Without an understanding of the pain that they surround in?
I always feel foggy somatic detachment
It's like my body isn't connected to actions
It destroys everything that's affected the fragments
I don't have nothing but senses and sadness[Bridge: Yes Alexander]
Darkness comes beneath the stars
With all the blood and all the scars
Nothing will stop me
The greater creature inside of me[Hook][Outro x3]
Run
