

# What Is Love For?

[Justin Currie](#)

What is love for?  
Does it wash good people ashore?  
Does it keep the world from the door?  
What is love for? And what does love do?  
Does it make life worth going through?  
Keep you safe from the suicide crew  
What does love do? And what is love for?  
Who does it help?  
A one eyed king that leads  
Everything straight into hell And what is love for?  
What does it change?  
Did Joan of Arc drag anyone  
Back from history's flames? And what does love do?  
Does it favor a fortunate few?  
Does it step on the hearts it can't use?  
What does it do? And what does love make?  
But 20 billion perfect mistakes  
Trying to figure what they can take  
What does love make? And what is love for?  
Who does it help?  
A one eyed king that leads  
Everything straight into hell And what is love for?  
What does it change?  
Did Joan of Arc drag anyone  
Back from history's flames? What is love for, what is love for?  
What do I do with love I can't use for her anymore?  
Where do I put this beautiful suit another man wore  
What is love for?
