

If We Fall In Love

Yeng Constantino

There will be no ordinary days for you
If there is someone who cares like i do
You have no reason to be sad anymore
I`m always ready with a smile
With just one glimpse of you
You don`t have to search no more
Cause i am someone who will love you for sure so..(CHORUS)
If we fall in love
Maybe we`ll sing this song as one
If we fall in love
We can write a better song than this
If we fall in love
We will have this melody in our heads
If we fall in love
Anywhere with you would be a better place..You can watch sad movies in a different light
So i`ll be there beside you
Hugging you oh so tight
(oh so tight)
Your hands will never feel so cold and empty again
Coz i will keep on holding on and won`t let go
(never let you go)
You don`t have to search no more
Cause i am someone who will love you for sure so..
(CHORUS)
If we fall in love
Maybe we`ll sing this song as one
If we fall in love
We can write better a song than this
If we fall in love
We will have this melody in our heads
If we fall in love
Anywhere with you would be a better place..Feel so good when you`re around
One smile from you
(one smile from you)
Be mine,this feel so right..so..(CHORUS)
If we fall in love
Maybe we`ll sing this song as one
If we fall in love
We can write better a song than this

If we fall in love
We will have this melody in our heads
If we fall in love
Anywhere with you would be a better place..
yeah aaaaaa
