

# Wishbone

## Dropbox

Ride out her open road  
Fell to the waste side  
Dined on her dirt soul  
Ain't willing to pass it byWent down by the loads  
Told time by the moon and sun  
Hidin' out in my abode  
Said I'm the only oneI'm doin' it 'cause I like it, wishbone  
Out of my way to find it, wishboneSmoke rings above the flames  
Bitter sweet aftermath  
Dry mouth, I call her name  
She leads an easy pathDark eyes and dark intentions  
She'll answer every question  
Tied up to have your way  
This one is just for playI'm doin' it 'cause I like it, wishbone  
Out of my way to find it, wishbone  
Don't bother me while I'm on it, wishbone  
You fall apart without itI wanna break you apart  
(I wanna overflow you)  
I wanna break you apartI wanna break you apart  
(I wanna overflow you)  
I wanna break you apartWe're doin' it 'cause I like it, wishbone  
Out of my way to find it, wishbone  
Don't bother me while I'm on it, wishbone  
You fall apart without it, wishboneWishbone, wishbone, wishbone, wishbone
