

I Must Have Someone Else's Blues

Great Lake Swimmers

I can't seem
To keep out
Of the rain
I'm in a storm
That I can't shake away
Salvation I thought of nothing less
I'll keep driving 'till I run out of gas
Salvation
Yes it was here all along
Still can't figure out what went so wrong Keep on the sunny side
Keep on
Keep on
I lost my heart
I'm looking for clues I must have someone else's blues
A bad bit of weather that I can't defuse
I must have someone else's blues
I can't help staring at my shoes
I must have someone else's blues
I leave my door and trouble ensues
I must have someone else's blues Keep on the sunny side
Keep on
Keep on
I lost my heart
I'm lookin' for clues
I must have someone else's blues A bad bit of weather that I can't defuse
I must have someone else's blues
I can't help staring at my shoes
I must have someone else's blues
I leave my door and trouble ensues
I must have someone else's blues
I must have someone else's blues
I must have someone else's blues A bad bit of weather and I can't defuse
I must have someone else's blues
I can't help staring at my shoes
I must have someone else's blues
I leave my door and trouble ensues
I must have someone else's blues
