

Love Me

Frank Sinatra

I'm so in love with you, please love me
Whatever else you do, just love me
Go your way and dance and play
'Til dawn breaks through
If you'll just call up and say
"I love you, just you" You're all that I desire, love me
I'd die if you should tire of me, love me
I'll be kind and I won't mind
If you're not near
If you'll only love me, dear Love me
I'll be kind and I won't mind
If you're not near
If you'll only love me, dear
