Lonely All The Time

Reckless Kelly

You don't want to see me
You're not into wasting time
You think I wont but believe me
I'll stand right by your side

And if you go you'll never know
A love from a heart like mine
But baby, you don't have to be
Lonely all the time.

You're thinking hard about the complications
Scared of what the future might bring
Well, maybe baby, you should start pointing fingers
Find out if the finger fits the ring.

And if you stay your heart will lead the way
To a love that you can't deny
But baby you don't have to be
Lonely all the time.

I don't want to see you head down that lonesome road
You can be certain that the ride is often slow.

You're working hard for your picket fences
And your two point three
Well, I'm a little reckless but I don't mind fences
If the gate swings free.

Through the gate lies a garden that grows
Full of love from a heart like mine
But baby you don't have to be lonely
Lonely all the time.

Lonely all the time
Lonely all the time
Lonely all the time
