

# If We Try

Don Mclean

When I see you on the street, I lose my concentration  
Just the thought that we might meet creates anticipation

Won't you look my way once before you go  
And my eyes will say what you ought to know  
Well I've been thinkin' about you day and night  
And I don't know if it'll work out right  
But somehow I think that it just might

If we try

Faces come and faces go in circular rotation  
But something yearns within to grow beyond infatuation

Won't you look my way once before you go  
And my eyes will say what you ought to know  
Well you've got me standin' deaf and blind  
'Cause I see love as just a state of mind  
And who knows what it is that we might find

If we try

You're walking a different direction from most people I've met  
You're givin' me signs of affection I don't usually get  
I don't want you to pledge your future, the future's not yours to give  
Just stand there a little longer and let me watch while you live  
'Cause when I see you on the street, I lose my concentration  
And just the thought that we might meet creates anticipation

Won't you look my way once before you go  
And my eyes will say what you ought to know  
Well I've been thinking about you day and night  
And I don't know if it will work out right  
But somehow I think that it just might

If we try

Somehow I think that it just might

If we try

Yes somehow I think that it just might

If we try
