

Galaxy (feat. Sarah P.)

Sun Glitters

Holding on a dear moment
I would say
I will stay here longer
Spaced out
With stones and crowns
I could Barely hear their sounds
Speed up with in the stars, above! Venius, Mercury & Mars
All the honey friends of sun's
And there're zillions of stars
Larger Than the brain of some Iconic nightfall
Let me dream of space walls
Falling for the eyes of charm
Stars intergalactic storm
Holding up & holding on
You look small from higher up
Smothering my sighs for long
I release them, freely so
Oh...
Is it time to go back home
How?
Can i leave this zone
O-Glow!
Star light in my hand, roam
Covered up
With some special astral foam
Through this honed comets storm
Promise you
To be back soon
