

# Time and Tide

## Madison Violet

It's hard for me to stop my heart  
    love never knows  
    when the time is right  
    I don't want to hurt  
        anybody but  
        can't help loving you  
    I never felt like this before  
        I know this is passion  
        worth waiting for  
    let love take take its course  
        that's the only thing  
        for us to do  
    We got time, oh baby,  
        there's no rush  
        gonna be a better  
        day for us  
        hang on  
        and I will  
        wait for you  
    our love will always stay as good as new  
        Time and tide  
        nothing and no one  
        can stop us now  
        for better for worse  
        this time I'm sure  
        it's gonna last  
    How can I stop my heart?  
        Love never knows  
        when the time is right  
        don't want to hurt  
            anybody  
        don't want to make them cry  
        don't want to make them cry  
        We've got time, oh baby  
            there's no rush  
            gonna be a better  
                day for us  
                hang on  
                and I will wait for you

Our love will always stay as good as...  
new  
It's a matter of time  
only a matter of...  
Time and tide  
nothing and no one  
can stop us now  
for better for worse  
this time I'm sure  
it's gonna last  
gonna last forever  
We got time, oh baby  
there's no rush  
gonna be a better  
day for us  
hang on  
and I will wait for you
