

Treasure

The Cure

She whispers, "Please remember me
When I am gone from here"
She whispers, "Please remember me
But not with tears""Remember I was always true
Remember that I always tried
Remember I loved only you
Remember me and smile
For it's better to forget
To remember me and cry""Remember I was always true
Remember that I always tried
Remember I loved only you
Remember me and smile
For it's better to forget
To remember me and cry"
