

# Lead Us To Truth

## Gi

Oh oh oh oh oh....

Weâ€™ve been deceived I would be seeing on a TV, the lights, cameras, the actions and smoked screens  
But the truth that lies underneath, is opposed in the guy that we say we need  
Donâ€™t be so easily misguided by the clever schemes in disguises  
Look a little deeper and you will discover: affection of another;  
Jesus is a keeper

Chorus:

Jesus show us the way that leads to You  
Donâ€™t wanna astray, lead us to Truth  
Show us the way that leads us to You  
Donâ€™t wanna astray, lead us to Truth

In the society we â€™re plagued with confusion, the face value is only an illusion  
But the knowledge of reality is dilusion,  
Help me form my ultimate conclusion  
No more following and listening to what they say (NO!)  
Theyâ€™re nothing in authority anyway  
Look a little deeper and you will discover affection of another  
Jesus is a keeper

Jesus show us the way that leads to You  
Donâ€™t wanna astray, lead us to Truth  
Show us the way that leads us to You  
Donâ€™t wanna astray, lead us to Truth

Oh oh oh oh....
