

Morphogenesis

Gappeq

This is year zero, all we knew has died
The mutiny came so sudden, killing yesterday Thoughts that forced discordance away
Once more an era is fading
Whatever dreams we're reaching to claim
Decides the path we are taking Gone forever
We are done with world views mechanical
None shall, none shall ever be a slave
To thoughts inside their heads Mind is the master, morphogenesis
This structure remained untrodden a new reality Gone forever
We are done with world views mechanical
None shall, none shall ever be a slave
To thoughts inside their heads Gone forever
We are done with world views mechanical
None shall, none shall ever be a slave
To thoughts inside their heads Bleeding through all spheres, all our thoughts, all our fears
Gaining life, soul, mind, heart, feeding starts now
Rising from ashen dust, through our sins, karmic cost
Measured souls, weigh our hearts, judge our thoughts, no Thoughts that forced discordance away
Once more an era is fading
Whatever dreams we're reaching to claim
Decides the path we are taking Gone forever
We are done with world views mechanical
None shall, none shall ever be a slave
To thoughts inside their heads Gone forever
We are done with world views mechanical
None shall, none shall ever be a slave
To thoughts inside their heads
