

Golden

The Young Electric

Did you keep it all from me
Make it the deepest cut they've ever seen
And watch you lose it down the sink
Did you make it sting
Make it sting

You gave it all away
Did you give it all away

You were golden
But you're dead in my eyes
You are gone so goodbye

And you saved it all for me
But it takes something you'll never be
And your eyes will make you think
That it was all for me
It never seemed

You gave it all away
Did you give it all away

You were golden
But you're dead in my eyes
You are gone so goodbye
You were golden
But you're dead in my eyes
You are gone for good
You are gone so goodbye

So bite your tongue
And ask was it worth it now
Was she worth it now
So bite your tongue
And ask was it worth it
Was it worth it now

You were golden
But you're dead in my eyes
You are gone so goodbye

You were golden
But you're dead in my eyes
You are gone for good
You are gone so goodbye
