Talk to Me

The Outfield

I'm not afraid in the dark
To say what I feel
And I'm just too scared to tell ya
What I know is realBut I can't wait any longer for the lights to go down
Wait any longer for the lights to go down
Wait any longer for the lights to go down
Can't you see?Baby, when you talk to me
Baby, when you talk to me
Talk to me
Baby, when you talk to meI wanna hold you so close
Each beat of the day
I call you up on the phone
Nothing to sayBut I can't wait any longer for the lights to go down
Wait any longer for the lights to go down
Wait any longer for the lights to go down
Can't you see?Baby, when you talk to me
Baby, when you talk to me
Talk to me
Baby, when you talk to meSince we first met
You were the only one
Sometimes I forget
I'm still the lonely oneI'm in a trap, sealed by your lips
Scared to go anywhere
Thinking about those things I miss
Whenever you're not thereBut I can't wait any longer for the lights to go down
Wait any longer for the lights to go down
Wait any longer for the lights to go down
Can't you see?Baby, when you talk to me
Baby, when you talk to me
Talk to me
Baby, when you talk to meTalk to me
Baby, when you talk to me
Talk to me, yeah
Baby, when you talk to meTalk to me, yeah
Baby, when you talk to me
Talk to me
Baby, when you talk to me
