Hollywoodemia

Lovehatehero

Were on our knees
With our fingers in our throats
To fit into the smallest jeans

Were on our knees
Counting carbs and calories
Slaves to this routine
It's such a shame

Deseased this city is, spread by magazines
And movies scenes that almost could
Welcome you to Hollywood

Deseased this city is
Were flying high on hopes and dreams
And crash land to reality

Killing yourself is an addiction
We starve ourselves till our next audition
It's such a shame

Deseased this city is, spread by magazines
And movies scenes that almost could
Welcome you to Hollywood

Deseased this city is
Were flying high on hopes and dreams
And crash land to reality
Reality

Dreaming of beauty
Were dreaming of being them

Deseased this city is, spread by magazines
And movies scenes that almost could
Welcome you to Hollywood

Deseased this city is
Were flying high on hopes and dreams
And crash land....
