

Hypnotized

Die Happy

Too suspicious
Fire burns too high
Wolfs could stroll around us
A little guilty
Shaded worrylines
The treasure that you found
And stole all your passion
Your lifeAre you hypnotized
Someone paralyzed you
What a comprimies
Is there something left of you?
Are you hypnotized
Do you sacrifice yourself
So free your mind
Beyond the point of no returnNoises of your
Leaking memories
Of what you used to be
Get together
Listen carefully
Do you remember me?
Someone who cared and still doesAre you hypnotized
Someone paralyzed you
What a comprimies
Is there something left of you?
Are you hypnotized
Do you sacrifice yourself
So free your mind
Beyond the point of no returnWill you start over
And wash away
All your pain
Will somebody catch you
When you fall
Ask yourselfAre you hypnotized
Someone paralyzed you
What a comprimies
Is there something left of you?
Are you hypnotized
Do you sacrifice yourself
So free your mind

Beyond the point of no return
Are you hypnotized
Are you hypnotized
Someone paralyzed you
Is there something left of you?
Is there something left of you?
Will you start over
And wash away
All your pain
