

Best Days (feat. Melissa Loretta)

Masoud

Pull me into the storm
Im never going to give you up
My heart is healthy and warm
 Still falling for love
 Crash down let go
Im never going to pull your trust
 Still i've told you before
 That i meant this for war
 WarIll take the dark skies
 And the hurricanes
 As long as I have you here
 Wont be so long
 To turn away
Its always going to be this clear
 Forever
 And ever
 And ever
 I've told you before
 That i meant this for war
 WarMy only fear
Is im going to fall right into you
 Will you laugh the same way
 Will you catch the mistakes
 My only fear
Is im going to fall right over you
 Will you laugh the same way
 Will you be my best days
 Will you laugh the same way
Will you get the best daysMy only fear
 Is im going to fall right into you
 Will you laugh the same way
Will you catch the mistakesIll take the cold nights
 And the hard times
 Just promise it will be okay
 Its a long ride
 And im not shy
 Even if its gone away
 Forever
 And everMy only fear

Is im going to fall right into you
Will you laugh the same way
Will you catch the mistakes
My only fear
Is im going to fall right over you
Will you laugh the same way
Will you be my best daysMy only fear
Is im going to fall right over you
Would you laugh the same way
Would you be my best daysIm falling all
All over you
Im falling all
All over youMy only fear
Is im going to fall right into you
Would you laugh the same way
Would you be my best days
