

# Death Trap

## Pantera

I see you runnin'  
You're gone  
A million miles away  
But you know I'm comin'  
Violenz that  
Blows you into space  
And you think  
You're gonna get away  
Like you did before  
But you're the type  
I never feel sorry for, so Fall into my death trap  
Fall into my death trap Life's paranoia  
You're hiding in  
The dark all day  
At nite I call you  
Cause I know  
You're always wide awake  
So you never  
Sleep at all at nite  
Extermination  
Of you're wasted life So now I've got you  
You're cornered like a fool  
I terminate you  
Live by my golden rule  
Task complete  
And once again I've won  
Now I search  
For another victim to come  
I can't explain the sheer  
Thrill of it all  
Its such a chill  
To watch the meek just fall
