

# Car Language

## Guided By Voices

See the meaning of driving  
And the driver insists  
That you buckle up  
Wild joy of traffic  
And flashing metal interaction And the mounting commotion  
Could the driver resist  
Selecting "simply no"  
For last legs standing/  
Auto-erotic satisfaction? This is car language  
Turned on by a signal  
And everywhere we go  
We do it fast  
By automobile...
