Autumn

Sparks The Rescue

Girl, You remind me of the summer time
But now you need time to clean your mind
Your'e tripping over what is wrong and right
Just decide, I've been waiting all nightThink back, think back, to the summertime
(I will cross through these state lines)
You were always on my mindIt should not be this hard to see
(How to get from Point A to B)
Without losing sleep, without losing sleepI, Will follow the electric light
With my electric heart i then will find
A way through all these dancing signs
I'll be there I will wait by your side
Ooh, by your sideThink back, think back through the summertime
(I will cross through these state lines)
You were always on my mindIt should not be this hard to see
(How to get from Point A to B)
Without losing sleep, without losing sleepWe spin, we spin, and fall onto the floor
Your'e such a lovely lady
We spin, we spin, and circle round once more
Always making me crazy, ooh yeahThink back, think back through the summertime
I will cross through these state lines
You were always on my mind
It should not be this hard to see
(How to get from Point A to B)
Without losing, without losing sleepThink back, think back through the summertime
(I will cross through these state lines)
You were always on my mind
It should not be this hard to see
(How to get from Point A to B)
Without losing, without losing sleep
