

# Middleman

## Roland J. Bowman

you know i couldn't be me, if it wasn't for you  
i feel like shit and look like plastic, but i'll get through  
you know it's plain to see, what's going to do  
as long as it don't get too drastic. then we can't lose  
don't blame the middleman, come to me  
i'll tell you what i can, all you need  
cut out the middleman, wait and see  
it was you that told me, the aliens had landed  
and it was you that told me, the end had just begun  
don't blame the middleman, come to me  
i'll tell you what i can, all you need  
  
cut out the middleman, wait and see  
but we're in this thing together  
you can't escape i've got you trapped deep inside  
you said you'd stay with me forever  
where are you now what i need you as my alibi  
you left me all alone, in my hour of need  
i tried to explain the situation, but they don't believe me  
don't blame the middleman, come to me  
i'll tell you what i can, all you need  
cut out the middleman, wait and see  
from sandy.
