

Underneath

[Jessica Simpson](#)

Sometimes it's hard when you're so deep inside
To see all you could lose in a blink of an eye
Dreams could be shattered, you could be gone
How would I survive, 'cause you're where I belong
My soul believer, without you
I don't know who I would be[Chorus]
Underneath, I can feel you move through me
Inside out, you surround me
I breathe you like I'm taking last breath
Oh, you're everything I know
So how could I let you go? Sometimes I listen to a voice that isn't mine
I disconnect from anything inside
I have made choices, and wasted all the days
I could've been with you, when my heart had stayed
I know you've waited faithfully
Blessing our love even stronger[Chorus] I've been blessed with all the best
For every gift you have given
I've been touched by hands that trust
My love that's risen[Chorus]
