

# Dance Like There's No Tomorrow

Paula Abdul

All I wanna do is stay right here on the floor  
Get lost in the night and dance like there's no tomorrow  
Don't care about the sunrise, somebody please just hit the lights  
All I wanna do is dance like there's no tomorrow  
Today just wasn't my day, everyone's getting me so fed up  
I've gotta find a way, I know what can make me feel better  
Stepping out in my best, looking hotter than ever  
Wherever the party is that's where I'll be in a second  
I'm so ready to move my body, forget about all my problems  
When I hear my song I'ma lose control, h-here I go  
All I wanna do is stay right here on the floor  
Get lost in the night and dance like there's no tomorrow  
Don't care about the sunrise, somebody please just hit the lights  
All I wanna do is dance like there's no tomorrow  
I'm loving the atmosphere, feels like I'm floating in heaven  
The music's all in my ear, taking over me, my heart's racing  
Feeling so Hollywood, how I got everybody staring  
Their eyes are the cameras and I'm loving all the attention  
Get up, 'bout to move my body, forget about all my problems

They're playing our song, I'ma lose control, h-here I go  
All I wanna do is stay right here on the floor  
Get lost in the night and dance like there's no tomorrow  
Don't care about the sunrise, somebody please just hit the lights  
All I wanna do is dance like there's no tomorrow  
Please DJ, don't say it's the last call  
'Cause I know what it means  
And I don't want you to play no slow song  
I'm still building the nerve to talk to that guy  
Just give me another song and make it right  
All I wanna do is stay right here on the floor  
Get lost in the night and dance like there's no tomorrow  
Don't care about the sunrise, somebody please just hit the lights  
All I wanna do is dance like there's no tomorrow  
All I wanna do is stay right here on the floor  
Get lost in the night and dance like there's no tomorrow  
Don't care about the sunrise, somebody please just hit the lights  
All I wanna do is dance like there's no tomorrow
