

# Long Day's Shadow

[Jason Collett](#)

The day is getting on  
And the sun set shadow goes long  
First glance of what I am  
In the sunset shadow on the line  
Leaving a long days amo to take flight Sometimes it burns so bright  
In the moonshine shadow you burn at the night  
Leaving a long day shadow behind  
Long day shadow  
It's been a long day  
A long day shadow  
It's been a long day  
A long day shadow (ooh)
