# Starfall

## Darkhalo

Astray I have wandered
I have been haunted
By the fear that's been holding me downBut the heavens sing your silent cry
And they whisperA sleepless starlight
To grant you a world beyond your sight
Hear the calling ofThe sign of truth - starfall lights your eyes
The wish it hides - is in your mind
The hope of life - when astral angels cry
Truth and lies - starfall eyesI hear the calling of a thousand lights
Sing to me
They've been singing to meA sleepless starlight
To grant you a world where you belong
A world beyond your mindForever, this is the moment of surrender to
To the calling ofThe sign of truth - starfall lights your eyes
The wish it hides - is in your mind
The hope of life - when astral angels cry
Truth and lies - starfall eyesSign of truth
Wish it hides
Hope of life
Starfall eyes
