Turnham Green

Colorama

Turnham Green - Colorama

....instrumental intro....

Turnham Green, turn 'em blue, turn 'em in to something new
Travel through any day
Turnham Green is hidden on the way

Turnham Green, turn 'em brown, you turn 'em up, so turn 'em down
and if they look at you in doubt
make your point and try to turn around

Everybody's wondering where you've been
lying empty in the space between
and when I am riding on the line
Turnham Green is playing in my mind
playing in my mind

....instrumental interlude....

Everybody's wondering where you've been
lying empty in the space between
and when I am riding on the line
Turnham Green is playing in my mind
playing on my mind

Turnham Green, turn 'em red
turn 'em all up on their heads
any train is good for me
so long as I remember where I've been
so long as I remember...
Turnham Green
