

# All the Stars (feat. Clayton Lambert)

[Liv Heyer](#)

All the stars up above us  
Donâ€™t come close to anything you are

And all the lights on the city line  
Donâ€™t compare to your eyes

And only forever is long enough  
To show you all my love  
I want this life of ours  
Captured in photograph

And all the times you said okay  
To all my obvious mistakes  
And all the promises you made  
Iâ€™m yours to take  
And how you always had a way  
And I never got to thank  
All of the stars  
That gave me you my love

All the stars that surround us  
They donâ€™t know anything, donâ€™t know how to live

And when you canâ€™t rememebr my name  
Please tell me that youâ€™ll still love me the same

And only forever is just enough  
To show you all my love  
I want this life of ours  
Captured in photograph

And all the times you said okay  
To all my obvious mistakes  
And all the promises you made  
Iâ€™m yours to take  
And how you always had a way  
And I never got to thank  
All of the stars

That gave me you my love

Just say okay, we only have so much time to waste  
Only heaven can help us, gravity can't pull me away  
and I know we'll find our way, cause every day i'm thanking  
All the stars  
Cause they gave me all your love
