

The Power Of...

The Pierces

And it was the final straw
Though I never knew just what he saw
Never underestimate the power of...
Never underestimate the power of...He could bring me to my knees
Though I never saw just what he sees
I was callin' out for him, he never turned
I was callin' out for him, I never learnedNever ever, never underestimate
The power of...
Never ever, never underestimate
The power of...Saw you walking down the street
Those Velcro sneakers on your feet
You were walking faster than I could run
I was walking in the shade and you, the sunNow we can watch it fall
'Cause they built it up too tall
Now I'm sinking lower than all my tears
Sinking lower than all your fearsNever ever, never underestimate
The power of...
Never ever, never underestimate
The power of...Mmm, mmmBoy, you've got a lot to learn
Wait until it is my turn
And you stand everNever ever, never underestimate
The power of...
Never ever, never underestimate
The power of...Never underestimate
The power of...
Never underestimate
The power of...
