

Games Of Love

LESANDS

Many years ago now
In the garden of love
A temptation that was watched from above
I'll be your adam, if you'll be my eve
So come show me that you
Will not deceive
That love, just a crazy feeling
Deep and hidden meaning, it's true
And love, takes some understanding
So don't you go and break all the rules
We're talking a-b-c
I'm singing do-re-mi
I'll teach you endlessly
Games of love

We're counting 1-2-3
I'm writing 'u 4 me'
I'll teach you endlessly
Games of love
Listen to me now girl
'cos you've known all along
It's a game of love so don't play it long
I'll be your romeo and you juliet
Just read the book and you won't forget
That love, just a crazy feeling
Deep and hidden meaning, it's true
And love, takes some understanding
So don't you go and break all the rules
Repeat chorus
