Lady Jesus

The Asteroids Galaxy Tour

somebody joined
somebody drowned
when lady jesus come to town
she made the calls, she made it fall
in a crusade i've never seen beforesomebody joined
somebody drowned
who's gonna care for a blinded fool?
who's gonna save this blinded fool?
watch out everyone, here she comes,
claiming like she's the chosen one
who's gonna save this blinded fool?this is it, a money pit
I sense a fear of mother wit
disguise
smokey eyes
how come she don't take advice?* chorus x2 *
hey you
hiding away
forever on the outside never getting inside
big fool
digging a grave
forever on the outside never getting insidewalk the streets of my city/silly hood?
a silly sense of love and youth
what is left of an empty space
is society screaming for a better day
walk the streets of my city/silly hood
this is it, a money pit
a sense of fear of mother wit
disguise
smokey eyes
how come she dont take advice
