Go

Zebrahead

I never wanted to go
I never wanted a way
A way to see it, believe it
I know that you're not leavin' today
I never wanted to go
I never wanted a way
A way to see it, believe it
I know that you're not leavin' today
Caught in a trap of routine
Caught in a shitty old scene
Tell you a secret, I mean it
Take a trip, you'll see what I mean
Time is just not not not
Only seconds in a day
'Cuz what you got got got
Can be taken all away
With just one shot shot shot
Yeah, nothings here to stay
Why don't you get up, get up
'Cuz this time it's goin' down?
Watchin', waitin', dreams are fadin'
Things will never be the same
Ever changin', rearrangin'
Will you notice anyway?
I never wanted to go
I never wanted a way
A way to see it, believe it
I know that you're not leavin' today
One day you'll look look look
And see that things are not the same
The time you took took took
Has been taken all away
The hands you shook shook shook
Don't even know your name
You'd better get up, get up
'Cuz this time it's goin' down
Watchin', waitin', dreams are fadin'
Things will never be the same
Ever changin', rearrangin'

Will you notice anyway?
I never wanted to go
I never wanted a way
A way to see it, believe it
I know that you're not leavin' today
Watchin', waitin', dreams are fadin'
Things will never be the same
Ever changin', rearrangin'
Will you notice anyway?
