Away

Toadies

You say forever
And I confess I shiver
You say hope
I say that's where I'm goin'

To be in the shade
The oldest trees above my head
When I'm away, I know in my heart
There is a heaven

If I'm out hunting
Come right on in, yeah
And even when I'm gone
My doors are always open

And if I'm asleep
Make sure my blanket covers me, yeah

When I'm away, I know in my heart
There is a heaven

When I'm away
To be in the shade
The oldest trees above my head
When I'm away, I know in my heart
There is a heaven

Come right on in, yeah
