

1000 Lies

Holy Moses

I don't wanna live without your fantasy
And I like to come in your way to play
I am not that kind Do you like to change your mind?
My love is not dangerous
I've got so much to say A 1000 lies
Around us
A 1000 lies
Around us Don't lock the door with your old key
Before you locked into my inner eyes
My desire is burnin' You taught me, your right from wrong
Try to run, I can see
Please be strong The one who warned me all about
I can tell that I wouldn't be without I searched the whole world for someone like you
But I feel that you wonder what love is all about
No more sadness, no more bursting out
Two hearts can fit like a fuckin' glove A 1000 lies
Around us
A 1000 lies
Around us You taught me your right from wrong
Try to run, I can see
Please be strong The one who warned me all about
I can tell that I wouldn't be without
Now shut your mouth A 1000 lies
Around us
A 1000 lies
Around us A 1000 lies
Around us
A 1000 lies
Around us A 1000 lies
Around us Life went too fast
A 1000 lies
Around us An island told me
A 1000 lies
Around us Life went too fast
A 1000 lies
Around us
An island told me
