Everybody Knows

Finley Quaye

There's a shark looking for food
I see manners in the sky
I will tell you what it's all about
I will show you what it's all aboutEverybody knows shapes
Everybody knows musicOn the face of the future
Through the window in my mind
Through the mirror in my mind
I see signs of the timesEverybody knows shapes
Everybody knows musicThere is something in us
That will live forever I see children dying
The moon runs the sea
The sun inspires we, you and meEverybody knows shapes
Everybody knows musicThere's a monkey in the tree
I see vampire in the sky
I will tell you what it's all about
I will show you what it's all aboutEverybody knows shapes
Everybody knows music
