

If I Had a Heart

Todrick Hall

They don't like how we love
And they don't like what we do
But you're the one I dream of
And as long as you got me, I got you
And they gon' try to fight us
But baby we can fight through
Ain't that what we promised?
Couldn't handle the heartbreak
But I break too, oh This heart was paper thin
It will never break again But if I had a heart
It would still bleed
It would still be beating for you
Fiending for you
If I had a heart
It would still need
It would still be patient for you
Waiting for you
And if they play this on the radio
Wherever you are
Just know I'd be there
And I'd still care
If I only had a heart
If I had
It would still be beating for you
Fiending for you
(If I had a heart)
It would still be beating for you
Only for you They say love
Is patient
And I would wait but how long?
Don't let 'em change the station
Cuz the song that they're playing
That's our song
And they don't understand us
But maybe they don't have to
They're no better than us
And if we just runaway what does that prove, oh
This hearts been chained and bound
So you can never take me down
