

# Right As The Rain

**Barbra Streisand**

Right as the rain  
That falls from above  
So real, so right as our love  
It came like the spring  
That breaks through the snow  
I can't say what it may bring  
I only know, I only know  
It's right to believe  
Whatever gave your eyes this glow  
Whatever gave my heart this song  
Can't be wrong  
It's right as the rain  
That falls from above  
And fills the world  
With a blue of our love  
As rain must fall  
And day must dawn  
This love, this love  
Must go on
