

# Body Talk

## Escort

I can't stand it  
Told him we could do it all again  
We can't believe thieves and bandits  
Just standing there empty handed  
And ... we walk sidewalks up and down  
Watch them turn around  
Stop and read that body talk  
Witness through the screen  
Heard them made a scene  
Calling out  
No more! No more!  
Bring him back  
Bring him back  
Bring him back to me  
One time, One time  
On time, On time  
Yes I know  
Yes I know  
He can never be  
All mine, All mine  
All mine, All mine  
Take the pictures from my sleep  
Cause they always look the same  
Left them off.  
Show them back from where they came  
Shook the ground beneath my feet  
...the sound through my veins  
When I heard all of their voices  
Calling out your name  
One time  
Shame and slander  
Bring them up and call them out again  
We can seem so hardheaded  
Then talk about reprimanding  
...these sidewalks  
Ooh, stop and read that body talk  
Witness through the screen  
Heard they made a scene  
Hear our voices ringing out

Bring him back  
Bring him back  
Bring him back to me  
One time, One time  
On time, On time  
Yes I know  
Yes I know  
He can never be  
All mine, All mine  
All mine, All mine  
Take the pictures from my sleep  
Cause they always look the same  
Left them off.  
Show them back from where they came  
Shook the ground beneath my feet  
...the sound through my veins  
When I heard all of their voices  
Heard them calling out your name  
One time
