Get Away

Tq

What happened to the great escape
We've ended up on the merry go round
Now all we have are shadows on the wall we could've had it all
When did life get in the way Striking matches in the rain
Now their's only me and you living on this deadend avenue
Why don't we get away out of this town
Shake all those yesterdays their dragging us down
Their's nothing left around here for you and I
All those signs tell me to get away
We should just get away
What happened to the love we made
We used to give it all

When did life get in the way throwing water on the flame
Nows their's only me and you living on this deadend avenue
So why don't we get away out of this town shake all those yesterdays
Their dragging us down their's nothing left around here for you and I
All the signs tell me to get away
We should just get away why don't we get away
Out of this town shake all those yesterdays
Their dragging us down their's nothing left around here for you and I
So why don't we get away out of this town
Their's nothing left around here for you and I
All the signs tell me to get away
We should just get away
