

Strange Relationships

Chiara Hunter

Ever since I met you babe
That's pursuing the side of me
Tripping on the way I just can't let you be
Hiding in plain sight boy you can see right through
I'm tripping on the vibe, just wanna get stupid with you
You're feeling lucky, come on touch me, I'm so easy for you
And I wanna get freaky tooOh, we gonna have a strange relationship
Gonna give us a strange relationship
Oh, we gonna have a strange relationship
Gonna give us a strange relationshipNow I'm drowning in the motion
Coming in like a tidal wave
Caught up in the moment
I cannot explain
I know your other darlings
I know they all deranged
But nobody gonna love you
Nobody gonna love you this way
You're feeling lucky, come on touch me, I'm so easy for you
And I wanna get freaky tooOh, we gonna have a strange relationship
Gonna give us a strange relationship
Oh, we gonna have a strange relationship
Gonna give us a strange relationship
