# December Days

## [The Rocket Summer](#)

Too bad, let's make it of what we have
Life gets so hard without the best
Can't send this down
I'm sick of this life when it comes out of me
How does it feel, you wanna know?
I'm so distraught, I can't be left alone
Never, seems forever
Days still take down in December
See into this break and the memories here
Tell me, "Do they care to care?"
When will I lose this burden I wear?
And do they care, to care?
Get you back into my life, gotta get you
Get you back into my life
There's no way that I can do this right
Gotta get you, get you back into my life, yeah
How could this be a day to me?
You're nothing like a shame to me
Regretful thoughts, they break me
Make me see, without you I can't be me
See into your brown eyes
Turn into your brown eyes
See why your world is down
And I don't make a sound
I just wanna see you
Just wanna be you
'Cause I don't wanna let you down
See into this break and the memories here
Tell me, "Do they care to care?"
When will I lose this burden I wear?
And tell me, "Do they care, to care?"
Get you back into my life, gotta get you
Get you back into my life
There's no way that I can do this right
Gotta get you, get you back into my life
Please go to sleep and never mind the love
I get the moment alone again
Then you're here again, again
Again, again, again
