## Drugstore

My baby astrolab, yeah (4x)  
My baby astrolab is going take a walk outside before it's getting to cold  
I want you to hold me and pretend  
We know every single secret of that universe,...old  
Now and forever  
My baby astrolab (2x)  
Take my hand, take heart  
I hope you understand every single thing I perphall  
Into nothing less  
So C'mon baby astrolab lets get away before it's over know and forever  
My baby astrolab (2x)  
Take my hand, take my heart  
My baby astrolab (3x)
