

# Watching and Waiting

Didi Benami

(Ahhhhhh Ahh's)  
We were quiet in the car just listening to the rain  
From the lines on your face  
I knew it wouldn't be the same  
Just a bump along road  
Nothing to be ashamed  
The silence of my heart was  
Driving you away You were just in time, You were just like light  
You were mine but it's just not right Watching and waiting  
For something to change me  
Is leaving you hanging and only taking all your time  
The hard thing is learning from  
The pain and the hurting cause  
Watching and waiting  
I know you're gonna find your way (Ahhhhhh Ahh's)  
It's been too long  
The glass is cold  
You're all I know and tears explode  
Been a long time coming  
The wind starts blowing  
It's taking me away We were in lost time, You were just like light  
I'm on your side, but it can't feel right  
on your side, but it can't feel right, On your side CHORUS (Find your wayyyy) BRIDGE  
Listen carefully build a wall from me  
So I can't see you don't wanna hurt you  
Don't wait patiently, that won't do a thing CHORUS  
Ahhhhh Ah's Find your way  
Your way  
Your way  
(Ahhhhh's)
