

Already Over

Red

You never go, you're always here
(Suffocating me)
Under my skin, I cannot run away
Fading slowly I give it all to you, letting go of me
Reaching as I fall
I know it's already over now
Nothing left to lose, loving you again
I know it's already over, already over now My best defense, running from you
I can't resist, take all you want from me
Breaking slowly I give it all to you, letting go of me
Reaching as I fall
I know it's already over now
Nothing left to lose, loving you again
I know it's already over, already over now You're all I'm reaching for
It's already over
All I'm reaching for
It's already over now I give it all to you
I offer up my soul
It's already over, already over now Give it all to you, letting go of me
Reaching as I fall
I know it's already over now
Nothing left to lose, loving you again I know it's already over now
It's already over now
I know it's already over, already over
