

# All Your Attention

**Daniel Bedingfield**

Don't want you looking at the stars, tonight  
I just want your eyes on me  
I wanna be the only thing on your mind  
I'll be all you need  
(La la la la la la la la la la la la la)  
Don't want you talking on the phone, don't go out  
I just want you here with me  
Don't want you spending time alone  
Stay around, I'll be all you need  
(La la la la la la la la la la la la la)  
Can't you see you hold my heart in your hands  
You own me, you own me  
I need you to survive  
I know I'm alive when you hold me, hold me  
Don't want to share you with the stars in the night  
I only want you to only want me  
Now, then and forever  
Even jealous of the sun in your eyes  
I want you looking at me, only me  
I want all your attention  
Forgive me, if I seem to need you too much  
You illuminate my soul  
Don't think I could breathe without your touch  
You could never know  
(La la la la la la la la la la la la la)  
When I'm with you, I've got nothing to hide  
You know me, you know me  
I need you to survive  
I know I'm alive when you hold me, hold me  
Don't want to share you with the stars in the night  
I only want you to only want me  
Now, then and forever  
Even jealous of the sun in your eyes  
I want you looking at me, only me  
I want all your attention  
Can't you see you hold my heart in your hands  
You own me, you own me  
Need you to survive  
I know I'm alive when you hold me, hold me

Don't want to share you with the stars  
Don't want the moon to touch your heart  
I only want you to only want me  
Now, then and forever  
Even jealous of the sun in your eyes  
I want you looking at me, only me  
I want all your attention  
I want you looking at me, only me  
I want all your attention
