Special Day

Lyn

Breakfast when you wake
Along with the candle on a cupcake that I baked
Catering you is much of my oblige
Instead of stress and mirage
You?re the beat to my heart
Here?s a rose with no thorns on the stem, you?re a gem
You?re the reason, why I?ve, found one hundred ways to
Adore you three times a day, morning noon and night, it?s for you
Today?s a special day for you
These are a few
(These are a few, these are a few)
Things I?d like to do for you
Yeah, yeah, yeah, yeah, yeah, yeah, yeah
Today?s a special day for you, baby
These are a few
(These are a few, these are a few)
Things I?d like to share with you
Na, na, na, na, na, na, now, baby
I?m a fool for love today, honest, I?ll do
Anything you need me to, uh, huh
From sun rise to sun set on this ordinary day
You can have it all your way
That?s my job, you?re a heart throb
Love?s the reason, why I got it, set a you before me
So we can see what it?s like, morning, noon and night
It?s for you
Today?s a special day for you
These are a few
(These are a few, these are a few)

Things I?d like to do for you
(Would you like that? Yeah)
Today?s a special day for you
These are a few
(These are a few, these are a few)
Things I?d like to share with you
It doesn?t matter what the weather is, oh, no
From this point on, I?ll share with you the break of spring
An angel kissed the day, we fell in love, oh

So to you, the sweetness of, oh, dear my life
Just in case, oh, yeah, yeah, yeah
"Would you like that?"
"Yeah, that?s cool"
"What you wanna do, babe?"
"I don?t know"
"Think about it"
"I?m thinking"
"Think about it, ooh"
"I?m thinking"
"Ooh, I?m a fool for love today"
Honest, I, honest, I, honest, I, honest, I?ll do
Anything you want me to, special day for you
Today?s a special day for you
These are a few
(These are a few, these are a few)
Things I?d like to share with you
Special day for you
