

First Time

Family Force 5

[Verse 1:]

I got these memories, they're all of you and me
I've been recording them ever since I was seventeen
Push playback then rewind
I see us meeting for the very first time
A mental note of you, you sang my melody
First bar in a lifelong symphony
The prelude to a kiss
My heart's pounding when I reminisce [Pre Chorus 1 and 3:]
Press repeat
'Cause I want to see [Chorus 1:]
The first time that I saw your face
The first time that you spoke my name
The first time that I heard you say
There's a first time with me everyday
The first time that I felt your touch
The first time I couldn't get enough [Verse 2:]
Another memory, when you first looked at me
I hit pause and then love hit me back
Under attack stopped me in my tracks
There you go again, your eyes gave me a flashback
Remember that time, we stayed up all night
I swear we danced until we saw daylight
Step by step and frame by frame
Slow motion, let me see you again [Pre Chorus 2:]
Press repeat
'Cause I have to see [Chorus 2:]
The first time that I saw your face
The first time that you spoke my name
The first time that I heard you say
There's a first time with me everyday
The first time that I felt your touch
The first time I couldn't get enough
The first time that I heard you say
There's a first time with me everyday [Bridge:]
No matter what I do
I won't fast forward anything with you
I know you feel it too
The first time I saw love I was with you [Chorus 3:]
The first time that I saw your face
The first time that you spoke my name
The first time when we talked all night
Was the first time love made sense in life
The first time that I felt your touch

The first time I couldn't get enough
The first time that I heard you say
There's a first time with me everyday
