

# Further Away

## Manic Street Preachers

The further away I get from you  
The harder it gets for everyone else, for everyone else  
The happier I am when I'm with you  
The harder it gets when I am alone, when I am alone  
The harder I try to learn something from you  
Further away  
Further away, feel it fade into your childhood, further away  
Further away, feel dazed and misunderstood, further away  
The stiller the oxygen the harder you breathe  
The draining away just like an old man's dream  
Just like an old man's dream  
The simpler the answer the harder it can get  
The circular landscape comes back only with regret  
Only with regret  
The more estranged I feel from my youth further away  
Further away, feel it fade into your  
childhood, further away  
Further away, feel dazed and misunderstood, further away  
Further away, feel it fade into your childhood, further away  
Further away, feel dazed and misunderstood, further away
