

Vampire

Dot Dot Curve

Baby, get ready, I'm coming for you

I'm a vampire

I want you, nothing you can do

I'm a vampire

Watch me do my dance for you

I want you, nothing you can do

Baby, get ready, I'm coming for you

I'm a vampire

Come to my world, child of the night

Come out of your darkness and into my light

Looking for you all of your life

Don't be afraid, it'll be all right

God grant you serenity

You bring out the best in me

Let my love take you higher

Guess what, I'm a vampire

Baby, get ready, I'm coming for you

I'm a vampire

I want you, nothing you can do

I'm a vampire

Watch me do my dance for you

I want you, nothing you can do

Baby, get ready, I'm coming for you

I'm a vampire

In your head you always hear me

Close your eyes, I'm all that you see

For lust, for life, my intimate fire

Nightly dances, dance in desire

God grant you serenity

You bring out the best in me

Let my love take you higher

Guess what, I'm a vampire

Baby, get ready, I'm coming for you

I'm a vampire

I want you, nothing you can do

I'm a vampire

Watch me do my dance for you

I want you, nothing you can do

Baby, get ready, I'm coming for you

I'm a vampire
Let's be together, don't be afraid, you called me
I was what you wished for, you held me here beside you
I was what you wished for, I came for you, I came for you
I was what you wished for, you taste like honeydew
Be careful what you wish for
I wished for you your whole life
Be careful what you wish for
Let me be you tonight, tonight
Baby, get ready, I'm coming for you
I'm a vampire
I want you, nothing you can do
I'm a vampire
Watch me do my dance for you
I want you, nothing you can do
Baby, get ready, I'm coming for you
I'm a vampire
